Mayor's Office of Legislative Affairs

**Bill number:** 260164

**Introduced by**: Jones

**Cosponsor(s)**: Not applicable

**Assigned committee**: Streets and Services

**Date introduced**: 03/05/2026

# Fiscal Note

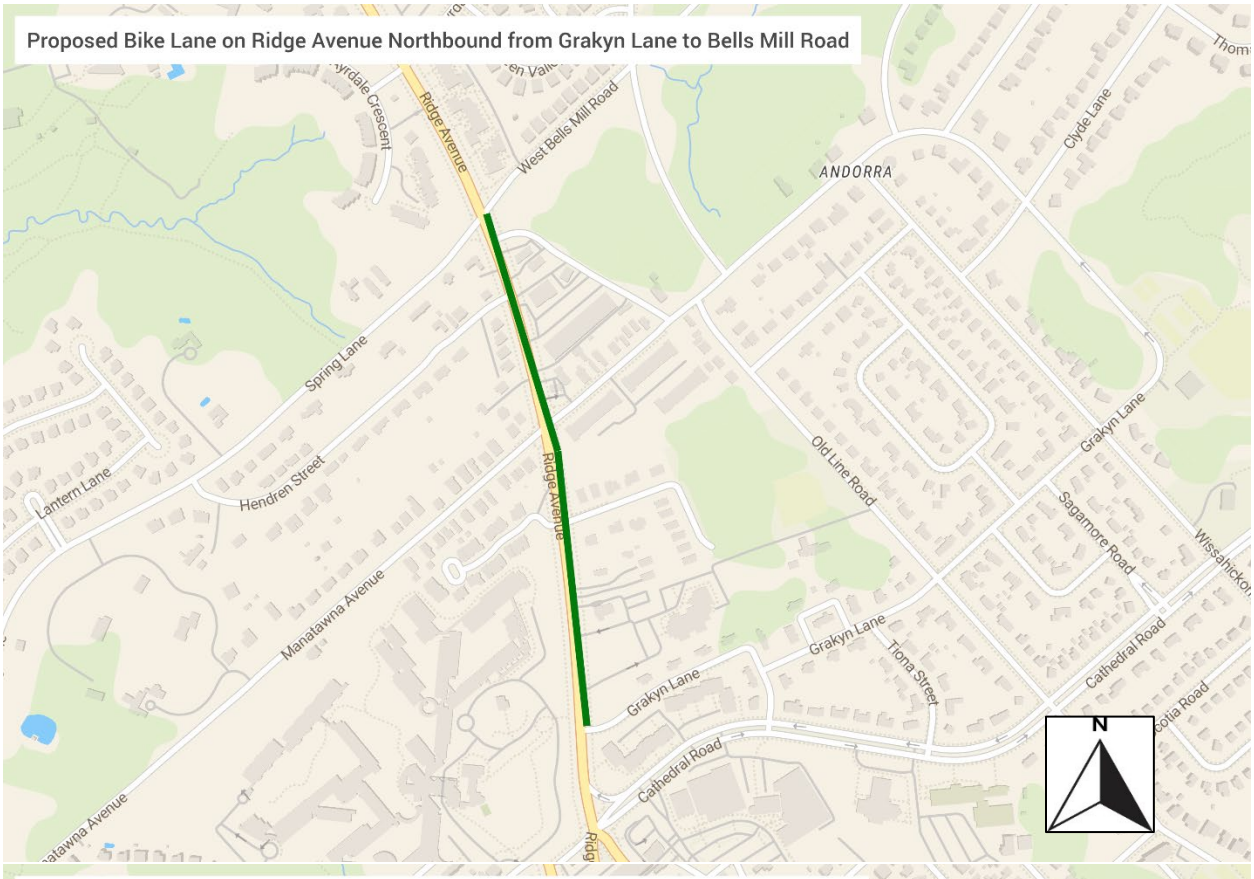
## Overview

This bill would allow the creation of bike lanes and the removal of travel lanes on portions of Ridge Avenue. This area of Ridge Avenue has an existing bike lane. This bill would allow the Office of Transportation and Infrastructure Systems (OTIS) to remove a travel lane to add additional protection for the existing bike lane. The proposed impacted lane is approximately 0.45 miles in length. The project costs are funded by PennDOT grant revenue.

## Legislative Summary

This legislation would allow the removal of a travel lane and allow a bike lane along:

- the northbound section of Ridge Avenue, from Grakyn Lane to Bells Mill Road.
- the southbound section of Ridge Avenue, from Grakyn Lane to Cathedral Road.



Proposed Bike Lane on Ridge Avenue Northbound from Grakyn Lane to Bells Mill Road
Ridge Avenue
West Bells Mill Road
ANDORRA
Clyde Lane
Spring Lane
Lantern Lane
Hendren Street
Manatawna Avenue
Old Line Road
Grakyn Lane
Sagamore Road
Tiona Street
Cathedral Road

Manatawna Avenue
Ridge Avenue
Old Line Road
Grakyn Lane
Sagamore Road
Tiona Street
Cathedral Road
Scotia Road
Hagys Mill Road
Belfry Drive
Steeple Drive
Sunset Avenue
Henry Avenue
N

## Proposed Effective Date

This legislation would be effective immediately after enactment.

## Fiscal Impact Analysis

This bill would allow OTIS to remove a travel lane to add additional protection for the existing bike lane on a portion of Ridge Avenue. The proposed impacted lane is approximately 0.45 miles in length. The project costs are funded by PennDOT grant revenue.

### *Budget Process*

The Department of Streets' budget process provides funding for OTIS bike lane projects. Often, larger projects from the Pennsylvania Department of Transportation (PennDOT) or Department of Streets paving projects include funding for bike lane projects. State and federal grants largely fund bike lane projects with any grant matching requirements provided by City Vision Zero funds. A list of common grant funding sources include:

- PennDOT's Transportation Alternatives Set-Aside or Multimodal Transportation Funds,
- Pennsylvania Department of Environmental Protection Funds,
- Delaware Valley Regional Planning Commission Travel Options Program, and
- U.S. Department of Transportation Safe Streets and Roads for All Funds.

### *Bike Lane Project Process*

OTIS leads bike lane projects that aim to enhance safety for all road users. Bike lane projects:

- Aim to connect neighborhoods with a bike network and improve safety.
- Often, start in response to safety concerns from Philadelphia communities.
- Include an OTIS analysis of bicycle counts, traffic and engineering studies, and crash data.
- Include before and after studies to track safety and traffic impacts for projects.
- Include community engagement activities, such as engaging with Registered Community Organizations, tabling at public events, and attending community meetings.

## Legislative History

***2012***

***Bill 120327 - Enacted***

Bill number 120327 was signed into law on June 20, 2012. This legislation requires an ordinance for the establishment of bike lanes on City streets if the bike lane requires removal of a parking lane, a travel lane, or both.
